Dr. L' / Colonel Itzik Cohen

**Re: Expressing appreciation and gratitude for organizing the tour for the
National Security College**

The National Security College operates under a government direction and **1.**
is a state institution providing the highest national security training
in Israel.

College students are officers of the rank of Colonel from all branches **2.**
of the military. All are defined as having the potential to be promoted
to the highest degrees in the organization. These include Senior college
representatives from the intelligence community, Prime Minister's Office,
Israel Police, Prison Service, government, defense industries and students
from foreign armies.

Our Present course comprises 40 students, including five students from **3.**
the United States, Brazil, India and Singapore.

In October 29, 2013, we conducted a study tour in Bnei Brak, as a part of **4.**
our course entitled "Israeli society sectors and lifestyles."

The tour organized by you was exemplary, to the last detail, and was rich **5.**
in content.

College students felt involved and interested in what proved to be a **6.**
significant learning experience which made an impression that was both
intellectually and emotionally deep.

Every place we visited we were received by those who were gracious **7.**
and warm, which created an atmosphere of camaraderie and mutual
enrichment.

Toals of the tour were achieved in full, and we aim to repeat the success **8.**
next year.

We wish to say thak you to all the good people who hosted us **9.**
generously, and you personally, on our behalf, on behalf of the students
and faculty and the commander of the college.

Our heartfelt thanks also goes to Mrs. Ricky Sutton for her vital part in the tour for the students and staff of the National Security College. 10.

They all were thrilled at the reception.

Well done! 11.
